

## Susan Crean on our brand new safety net: **drug and dental benefits.**

❖ "I signed up for the Coalition's health plan last March, went to the dentist in May, and a week later received a cheque for \$245. It kind of stunned me. I don't mean the speedy turn-around; I mean the unexpected sense of relief. Like coming down off the high wire to see someone has, at last, installed a net."

"We've talked forever in the Union about the need for a health plan, one 'with some teeth in it'. Well we've finally made it happen -- and here it is! Check it out at [www.writerscoalition.com](http://www.writerscoalition.com).

"Home, office, studio and auto insurance can be bought separately.
